MULTITONE BUSINESS SYSTEMS

Access Integrator-K - Alarm Serial Port Applications

Access Integrator-K is designed to work with Multitone CS100 & CS600 products using the CH70 / 72 / 74 handsets.

Access Integrator is a messaging interface for manual, electrical or data input with messaging out to a single user or team of users. In addition electrical or data input can be used to operate another alarm contact to open or close a remote device such as a valve, gate or sound a bell.
